

REMINGTON RESEARCH GROUP

NATIONAL SURVEY

OCTOBER 2023

Survey conducted October 6 through October 11, 2023. National survey sample consists of 1,023 Americans. Margin of Error is +/-3% with a 95% level of confidence. Totals do not always equal 100% due to rounding.

REMINGTON RESEARCH GROUP

Q1: Have you tried to book a doctor's appointment recently and faced difficulty because of delays or being asked to schedule the appointment far into the future?

Yes: 28%
No: 57%
Not sure: 14%

Q2: Have you had difficulty in getting an imaging service with a doctor over the past year?

Yes: 12%
No: 76%
Not sure: 12%

Q3: [IF YES ON Q2] What was the reason behind your exam?

Acute Injury: 17%
Illness: 21%
Cancer screening: 14%
Something else: 48%

I will now read you a series of statements regarding proposed Medicare cuts by Congress. Please indicate after hearing each of the following statements, what your opinion is of the proposed cuts.

Q4: Centers for Medicare and Medicaid Services (CMS) have proposed significant cuts to Medicare payments to doctors. In the coming years, some medical specialties may face 10 percent cuts or more. This comes at a time of rising personnel costs, supply shortages and patient backlogs. Please select the response below that most accurately describes your level of concern.

Extremely concerned: 49%
Somewhat concerned: 31%
Not concerned at all: 11%
I would need to know more: 9%

Q5: How important to you is maintaining Medicare coverage for diagnostic imaging services like mammography which allow doctors to diagnose disease, evaluate treatment, screen for cancer recurrence, and improve health outcomes?

Extremely important: 75%
Somewhat important: 16%
Not at all important: 6%
Not sure: 4%

REMINGTON RESEARCH GROUP

Q6: Over the past three years, have you faced a change in health care providers or doctors that you had previously been able to see?

Yes: 27%
No: 61%
Not sure: 12%

Q7: Typically speaking, how do you get your news?

Cable TV: 20%
Local news: 22%
Newspaper: 6%
Online news source: 8%
Social media: 3%
All/many of the above: 31%
Other: 4%
Not sure: 7%

Q8: [FEMALE ONLY] Have you received your mammogram the past three years in a row?

Yes: 59%
No: 35%
Not sure: 6%

Q9: [FEMALE AND 65+ ONLY] Over the past three years, have you at any point missed or been forced to reschedule your mammogram?

Yes: 12%
No: 79%
Not sure: 9%

Q10: Do you believe women should receive screening mammograms for free, but then be forced to pay over \$1,000 for diagnostic mammograms and follow-up imaging to diagnose potential cancer?

Yes: 19%
No: 62%
Not sure: 20%

Q11: Should cancer survivors be asked to pay more for their annual mammograms?

Yes: 4%
No: 88%
Not sure: 9%

REMINGTON RESEARCH GROUP

Q12: Do you agree or disagree with the government's proposal to pay healthcare providers less for women's annual mammograms and other lifesaving imaging services?

Agree: 10%
Disagree: 74%
Not sure: 16%

Q13: Do you agree or disagree with the government's proposal to pay healthcare providers less for your Medicare services?

Agree: 9%
Disagree: 76%
Not sure: 15%

Q14: Do you believe that cutting payments to healthcare providers for Medicare services is equivalent to a Medicare cut?

Agree: 53%
Disagree: 24%
Not sure: 23%

Q15: Do you believe the government should be investing more in health care services including lifesaving diagnostic imaging like mammography?

Agree: 73%
Disagree: 11%
Not sure: 16%

Q16: The Centers for Medicare & Medicaid Services' (CMS) defines health equity as the attainment of the highest level of health for all people, where everyone has a fair and just opportunity to attain their optimal health regardless of race, ethnicity, disability, sexual orientation, gender identity, socioeconomic status, geography, preferred language, and other factors that affect access to care and health outcomes. Do you believe everyone deserves access to health equity?

Yes: 76%
No: 12%
Not sure: 12%

REMINGTON RESEARCH GROUP

Q17: In the past two years, have you experienced any of the following barriers to access for imaging care? [Select all that apply, verbatim only]

Closure of doctor's office or imaging center: 14%
Having to travel farther for imaging care: 13%
Longer times to schedule imaging care: 16%
Longer office wait times in to receive imaging care: 6%
Longer times awaiting results of imaging exams: 3%
Last-minute cancellation or rescheduling of imaging exams: 3%
Other/none [CAPTURE VERBATIM]: 45%

Q18: If you received a diagnostic test result that required further testing and could potentially cost money out of pocket, what is the likelihood that you would have additional testing done?

Very likely to have additional testing done: 40%
Somewhat likely to have additional testing done: 27%
Somewhat unlikely to have additional testing done: 16%
Very unlikely to have additional testing done: 8%
Not sure: 9%
